

## WHY?

*MB Firepumps Ltd (MBF) remain committed to continual improvement of our operational systems, and our approach, in ultimate Quality of servicing, and equipment we install, with the underlying aim of minimising impact on the Health, Safety and Environment in which we operate. (We Care!)*

*We as a team (working in partnership with FM, Sprinkler Companies, customers, suppliers), aim through every one of our commitments to:*

- 

Achieve highest standards of Quality (aligned to certified ISO 9001 (2015) standard), whilst not compromising the Health, Safety and welfare of our employees and any others who may be affected by our servicing/ maintenance routines (working towards intent of ISO 45001 (2018));
- 

Help to provide safe and healthy working conditions for our engineers (along with our partner companies) by identifying, eliminating or mitigating hazards and occupational risks (during on-site visits/ Risk Assessment activity/ collaborative Projects);
- 

Comply with all Legislative/ Regulatory standards relevant to our activities (incl. as a minimum, requirements of HASAW Act (1974), latest BS 12845 Part1, LPC 1239 and FM Global guidance);
- 

Ultimate Accountability for the H&S of MB Firepumps team lies with, and is at the forefront of Managing Directors' decision making, encouraging all employees to work safely, and challenge any unsafe practices (*specific Roles and Responsibilities supporting H&S Management are defined within our document MB.S.01.Appendix C*);
- 

Involve the workforce through training, participation and effective communications/ consultation (as part of our on-going Operational/ systems improvements);
- 

Prevent recurrence of injuries, stress, ill-health and hazardous conditions by all of us, learning from mistakes, offering employees good work-life-balance (Healthcare provision);
- 

Recognise (and reward) good Quality performance and responsible Health Safety and Environmental practices;
- 

Co-operate with and encourage clients, suppliers and business partners alike to achieve improvements throughout their activities (incl. Improvements in Product/ Service Quality (and maintenance of related equipment), and Reduction in Accident potential);
- 

Regularly set and review Objectives and Targets to help deliver Continual Performance improvements, in line with these commitments, and address wherever possible identified business risks/opportunities
- 

Reduce and manage wastes responsibly (aligned with our SEPA Licence agreements).

*Each and every one of us believe that this policy can help provide basic foundations, programmes, and practices, which will contribute to improvements in overall Quality, Health & Safety; helping to protect all of our futures.*

*We will continue to promote such commitments via all team members (through online training, inductions and regular communications provided by ourselves and outside sources); also making available to our partners/other interested parties (via our website), offering on-going advice/ support as appropriate. Other operational (QHSE) arrangements are outlined within our 'Systems' (MB.S.01).*

Signed:   
(Managing Director)
